

Simple and Efficient Bill Management and Payment for Businesses

Bill.com is a web-based service that makes it easy for businesses to work with their accountants to manage and pay bills online. Easily digitize and record bills, exchange financial documents with your financial professional online, manage cashflow, pay bills, view vendor summaries, synch with popular accounting packages, and retain check and document images in a secure financial filing cabinet. With Bill.com, online bookkeeping has never been so simple.

Bill.com Enables Paperless Collaboration with Your Accounting Professional

- Easily digitize bills and contracts (scan, fax, upload, or mail via partnership with Shoeboxed.com)
- Better organize documents to make write-up and audit activities more efficient
- Access bills and financial documents anywhere, anytime with no storage fees
- Easily access payment history for any vendor

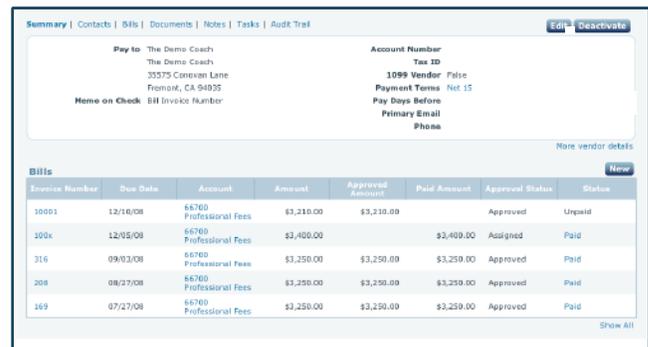

Manage Bills with a Simple Paperless Workflow

- Work with digital images of bills and contracts, not line items in accounting reports
- Easily search for documents based on any text, keywords, and payment amounts
- Retain digital bills and cleared checks indefinitely
- View upcoming payments in a calendar or to do list
- Get automated reminders of upcoming tasks

Save Time and Money with Online Bill Payment Designed for Businesses

- Pay any vendor or individual electronically or by check
- Eliminate check printing, signing, and mailing
- Eliminate duplicate data entry with banking and accounting systems
- Seamlessly integrate with QuickBooks to properly classify expenses

Safe and Secure

- Utilizes bank-level **data encryption**
- Data **backed up** in redundant US-based data centers
- Servers protected with **biometric security**
- Detailed **audit trail** of every approval and payment
- **SAS70 Type II Certified**
- **Advanced user roles and permissions**

<input checked="" type="checkbox"/>	Record payments made outside of Bill.com
<input checked="" type="checkbox"/>	If verified, make online payments
<input checked="" type="checkbox"/>	Sync with Accounting System
<input checked="" type="checkbox"/>	Manage company/users

What Businesses are Saying About Bill.com

“Bill.com is a wonderful service that has allowed me to **reduce my payable processing costs by at least 75%.**”

“I estimate that Bill.com has **cut down** our entire accounts payable process by **60% to 75%**”

“In one far-reaching step, Bill.com has replaced our previous approach of cobbled together processes and systems which were incomplete and inefficient. By marrying the disparate islands of accounting and banking in an elegant solution, Bill.com allows me to simply and easily manage cash flow and pay vendors electronically, all in one place from a web browser.”

“Bill.com has exceeded my expectations in every category.”

“There is **no other system** that pulls payables, document management, bill payment and cash management into one **easy to use interface.**”

“We were very impressed with the **intuitive user interface** that allows new employees to **quickly use the program.**”
